

Material Safety Data Sheet

Issued: December 12, 2006

1. Product and company identification

Preparation identity

Product code : IS-320-00
Commercial name : Nu-BioBlock
Product application : Deodorizing toss blocks for urinal.

Manufacturer identification

Innu-Science Canada Inc. , (cf. section 16)
Emergency phone number : Québec Poison Control Centre (24 hour service)
Québec: (800) 463-5060
All other areas: (418) 656-8090

2. Composition, information on ingredients

Preparation of non-pathogenic bacteria cultures and surfactants.

Ingredients presenting a risk hazard

Chemical name	CAS #	%	Classification
No hazardous ingredients			

3. Hazards identification

Physic/chemical hazard	No known hazard
Health risk	Slightly irritant in case of direct contact with eyes.
Environmental risk	No known hazard

4. First aid measures

Inhalation	Remove to fresh air.
Eyes	Flush eyes with plenty of water. It is also recommended to have medical personnel check your eyes afterwards.
Ingestion	Drink water.
Skin	Rinse with plenty of water for few minutes.

5. Fire fighting measures

Extinguishing media	Dry chemical, Carbon dioxide, Foam, Water
Special fire fighting measures	No special measures
Flammability	Non-flammable
Unusual risk of fire/explosion	No unusual risk

6. Accidental release measures

Individual protection	Wear safety glasses.
Clean-up procedures	In case of important spillage dilute with water and mop up or absorb with an inert DRY material and place in an appropriate waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose according to local and regional authority requirements.

7. Handling and storage

Handling	Avoid direct contact with eyes.
Storage	No specific storage condition is required. Keep out of reach of children.

NU-BIO-BLOCK

8. Exposure controls/personal protection

Keep in it's original container

Engineering controls No special ventilation requirements.

Personal protection device

Respirators Not required in normal industrial use.

Eyes Wear safety glasses.

9. Physical and chemical properties

Physical aspect Solid.

Colour Blue

Odour Lemon

Water solubility Easily soluble in water.

pH 6.50 – 7.50

Relative density Not critical

Flash point Not critical

Viscosity Not critical

10. Stability and reactivity

Stability Stable under normal conditions of use

Conditions to avoid None.

Dangerous reactions None.

Hazardous decomposition products None.

11. Toxicological information

Toxicity LD50/LC50 No available data

Skin No available data

Eyes Slightly irritant in case of direct contact with eyes.

Ingestion No available data

12. Ecological information

The product is not classified as « dangerous for the environment ». Complete primary and ultimate biodegradability. (ref: Dir. 648/2004/EC)

13. Disposal considerations

Do not eliminate large quantity directly in the environment.

14. Transport information

The transportation of the product is not limited nor restricted by transportation regulations.

15. Regulatory information

Danger Symboles None

Classification None

Safety advice Avoid direct contact with eyes.

16. Other information

This Material Safety Data Sheet is complementary to the technical sheet of utilisation but it doesn't replace it. The information contained in this MSDS is believed to be true and it is based on our actual knowledge on this product.
